

## Workflow Upgrade Fixes and Features

---

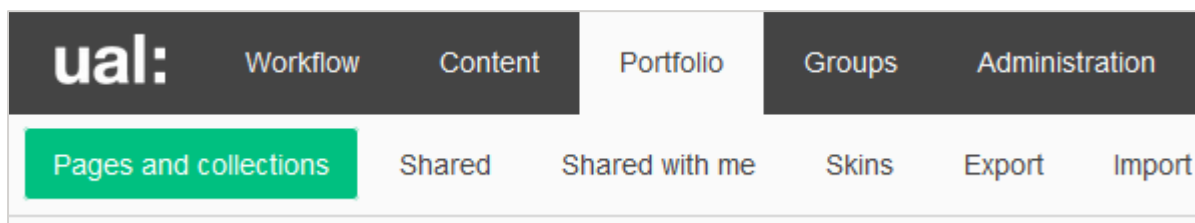

### Pages and Collections

Pages and Collections have merged into one space rather than having separate spaces.

#### Before

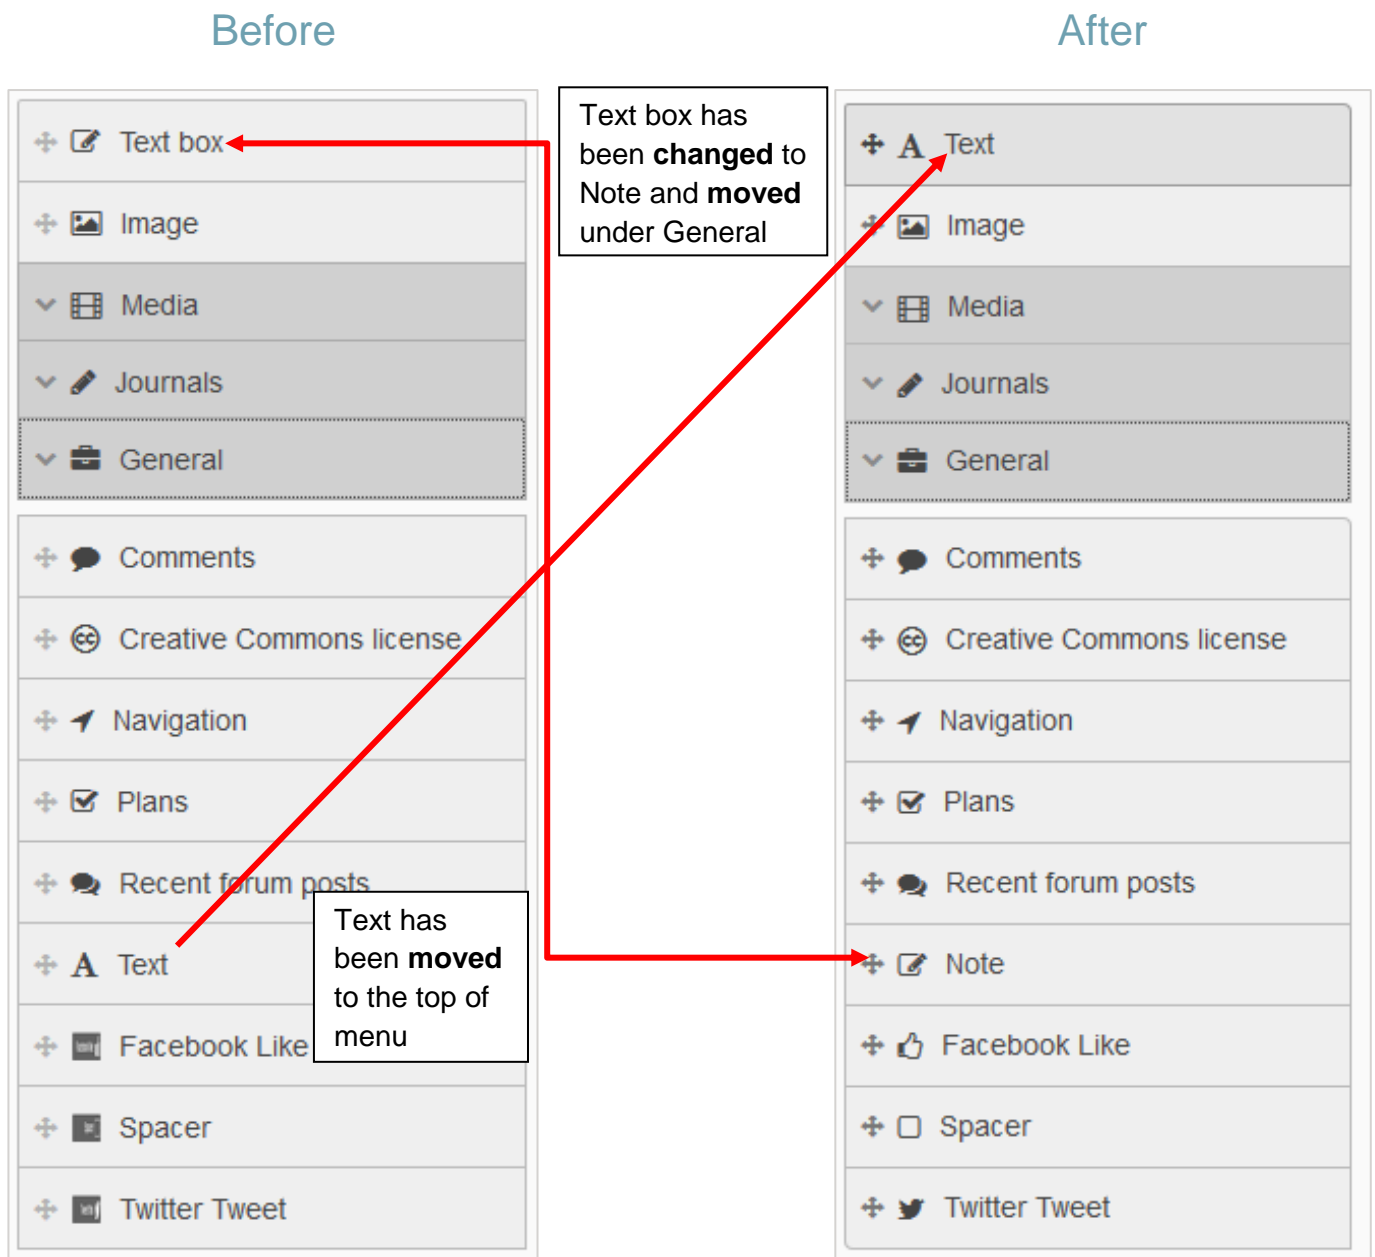

#### After

## Text box, Text and Note

The text block types have been swapped back to their original positions so that the simple text block “Text” is available at the top of the toolbar. In most cases all most users need is “Text”.

If you want to be able to re-use the text on other pages, the former “Text box”, now called “Note” is still available under “General > Note”. Notes are bits and pieces of text that you can re-use from one portfolio page in another without having to copy the entire page.

## Known Bugs

### Issue

The only significant issue we have at the moment is the IE 11 bug on Windows PCs.

### Fix

The workaround for this is to either apply the latest Windows updates or use a different browser.

## Further Support

Additional support is on hand should you require help. Contact the Digital Learning Support team at [dlsupport@arts.ac.uk](mailto:dlsupport@arts.ac.uk)
