

How to Create a Secret URL

If you don't want everyone to be able to see your Page, but you would like to show it to a few people who are not registered on this site, then you can make your page visible to the public through a special link which is difficult to guess. You can let your friends know about your page by pasting the link into an email.

1. Click Portfolio and Shared

PAGE TITLE	ACCESS LIST	EDIT ACCESS	SECRET URLS
lazer cutting		🔒	🌐
Basic toolkit	Workflow Support Cop	🔒	🌐
How to Create a Group (1)		🔒	🌐
Introduction to Workflow		🔒	🌐

2. Click Secret URL icon next to the page

3. Click New Secret URL

4. New Secret URL will appear here
